

INFORMATION SERIES

Cochlear Implant Compatible Assistive Listening Devices

There are assistive listening devices that can be used by CI individuals such as a phone adapter or FM system to enhance their ability to hear a conversation on a one to one basis, in a group, to listen to a speaker at a conference or to enhance their opportunity to participate in a meeting. This equipment can be used in a variety of situations for example systems can be used to amplify television for a CI user without disturbing the listening comfort of others in the room. Contact the companies below for further information. Inclusion on this list does not constitute endorsement of these products and exclusion does not imply disapproval.
